Newsletter April 2020

Hello members and friends,

As you know we're not having meetings until further notice but we intend to keep in touch.

One sad task is to let you know that our dear member, **Marjorie Morgan** died of cancer last week. When her daughter contacted us, she said that her mother was peaceful and surrounded by her family. Her daughter has written a biography and an obituary which she will send us in due course.

Marjorie was a very loyal member of CHG and we appreciated her gentle, gracious and self-effacing manner. Many of you will remember that she spoke to us in June 2018 on the woodcarver, John Kendrick Blogg. This was only one of the many contributions Marjorie made to our group and we look forward to hearing more of her remarkable life.

. Because so many of us are in 'hibernation' mode, I have included a table of traders in Maling Road who as at 31/3/20 will arrange home delivery or perhaps pick-up. SEE PAGE 2 below

Many thanks to John Constable from CCAG and Athena Katopodis from the Traders Association who compiled this for us. We do want to support our local businesses if we can. As we all know, the situation is changing daily so updates are probable.

. Many are sharing their memories of Canterbury on Facebook : Canterbury History, Today & Tomorrow which James Nicolas coordinates. You may want to join in the fun!

. We are very interested in any Canterbury memories you can record in writing or otherwise. Children and grandchildren may be interested too. What about writing your memoirs, either chronologically or under themes or both :

- the war years
- neighbours and friends
- entertainment
- kindy, schools, clubs
- streets and houses
- etc

. Good News: committee member, Sue Woolley, managed to return safely from Italy and has come out of 14 days self-quarantine unscathed. Sue will be involved with others in writing copy for our new website.
